# TEMPERATURE BLANKET IN C2C

How to make a temperature blanket?

You'll crochet your temperature blanket during one year, from January 1st to December 31st. It's each days temperature that decides which colour you'll crochet with for the different days. Decide when during the day you'll read your thermometer and write it down in the calender below. Use my colour chart or make your own and crochet accordingly to these instructions.

C2C

C2C stands for Corner to Corner which means you'll start crocheting in one corner and finish in the opposite one. If you haven't crochet using C2C before you can find a beginner instruction av my website under Patterns or click here.

How to read the graph?

Each colour, except for the black and white, represents one month. I've tried to distribute an equal amount of squares to each month, below you'll see how many squares to crochet every day. Since the months aren't dividable with the amount of squares you'll have to look closely to see how days you're going to crochet that many squares.

Crochet the black and white squares in just black and white to mark the details in your temperature blanket.

Start reading the graph at the bottom right corner.

	Month	Squares	Squares/day
	January	741	23 for 3 days - 24 for 28 days
	February	759	27 for 25 days - 28 for 3 days
	Mars	763	24 for 12 days - 25 for 19 days
	April	750	25 for 30 days
	May	789	25 for 17 days - 26 for 14 days
	June	726	24 for 24 days - 25 for 6 days
	July	726	23 for 18 days - 24 for 13 days
	August	789	25 for 17 days - 26 for 14 days
	September	750	25 for 30 days
	October	763	24 for 12 days - 25 for 19 days
	November	759	25 for 21 days - 26 for 9 days
	December	741	23 for 3 days - 24 for 28 days

Material

Crochet hook: 5 mm (H)
Yarn: Scheepjes Colour Crafter
Yarn usage: Start with one skein in each colour and then get more when needed. It's hard to know which colours you'll need when you don't know which ones you will be using.
Don't forget 2 skeins of black and 2 skeins of white for the details in the middle.

Size

The blanket is **100x130 squares** and since I haven't made this blanket size with this yarn before it's hard to give you precise measurments.
My test square 10x10 squares measured 13x13 cm (5x5 in.).
Therefore, I expect the blanket to measure ap. 130x170cm (51x67 in.).

Colour chart

Temperature °C	Temperature °F	My colours	Own colours
-5 or less	23 or less	1825	
-4 – -3	24-26	325	
-2 – -1	27-30	2015	
0-1	31-34	1034	
2-3	35-38	1099	
4-5	39-41	1064	
6-7	42-45	1065	
8-9	46-48	1821	
10-11	49-52	2004	
12-13	53-56	2002	
14-15	57-59	1132	
16-17	60-63	1241	
18-19	64-66	2006	
20-21	67-70	1083	
22-23	71-74	1084	
24-25	75-77	1828	
26 or more	78 or more	1123

Calender

Fill in this calender so you don't forget any temperatures. This way you can easier catch up when you haven't been crocheting for a few days/weeks.
